

MOHAMED SHERIF M

Python Full-Stack Developer | MCA Graduate

Chennai, India | +91 9791591830 | m.sherif22118@gmail.com | linkedin.com/in/mohamed-sherif-m-7061a3246 | github.com/techsherif-a

PROFESSIONAL SUMMARY

MCA graduate and Python Full-Stack Developer with practical experience in designing, building, and deploying web applications using Python, Django, Flask, MySQL, and JavaScript. Proficient in engineering RESTful APIs, relational database schemas, and modern responsive front-end layouts using ReactJS and Bootstrap. Demonstrated strong analytical and problem-solving skills across full-stack software development projects. Seeking an entry-level Software Engineer or Full-Stack Developer position to contribute scalable technical solutions.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript
Web Frameworks & UI: Django, Flask, ReactJS, Bootstrap, HTML5, CSS3
Database: MySQL, SQL
Tools & Hardware: Git, GitHub, VS Code, Arduino, GPS/GSM Microcontroller Modules

INTERNSHIP EXPERIENCE

Front End Development Intern Edunet Foundation / IBM SkillsBuild	June 2024 - July 2024 6 Weeks Program
--	---

- Engineered responsive user interfaces utilizing HTML5, CSS3, and JavaScript during a 6-week intensive software development internship program.
- Applied modern front-end web development practices to build clean, maintainable, and cross-browser-compatible UI components.
- Collaborated on project deliverables and code reviews, optimizing DOM manipulation and styling structures to improve page rendering speeds.

TECHNICAL PROJECTS

Disaster Relief Management System - Engineered a dynamic full-stack web application to centralize disaster incident reporting, victim tracking, relief inventory, and camp distributions. - Integrated database schemas with MySQL to execute SQL relational queries efficiently and minimize processing latency. - Designed dynamic, user-friendly front-end web interfaces utilizing custom CSS styling and responsive Bootstrap components.	Python, Flask, MySQL, JavaScript, Bootstrap
AI-Driven Autonomous Robot - Programmed control and navigation algorithms in Python on microcontrollers for real-time decision-making logic. - Implemented sensor-driven automated routines designed for intelligent control across multi-domain applications.	Python, AI Algorithms, Arduino
Location Tracking System for Women Safety - Built an IoT-based emergency tracking system utilizing GPS modules for real-time geolocation retrieval and GSM modules for instant automated em - Configured hardware-software communication interfaces to ensure zero-delay signal transmission during emergency triggers.	Arduino, GPS, GSM Modules
Edunet Website Clone - Developed a fully responsive web application clone using custom CSS layouts and dynamic JavaScript DOM manipulation to practice UI design stan	HTML5, CSS3, JavaScript

EDUCATION

Master of Computer Applications (MCA) B.S. Abdur Rahman Crescent Institute of Science and Technology	2023 - 2025 CGPA: 7.49
Bachelor of Computer Applications (BCA) The Quaide Milleth College for Men	2020 - 2023 CGPA: 7.3

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- NPTEL Certification: Cloud Computing Infrastructure & Services
- Skill Up Certification: Introduction to IoT & Embedded Systems
- Professional Development: Advanced Communication Skills & Technical Speaking
